

Brady Bangasser

brady@bangasser.dev | (651) 769-5301 | bangasser.dev | github.com/BradyBangasser | linkedin.com/in/bbangasser | Saint Paul, MN

Software engineer across the stack, from low-latency Go and Rust services and secure backends to the infrastructure and CI that ship them.

EXPERIENCE

Iowa State University

Apr 2025 – Present

System Administrator

- Developed and tested a new feature in a customized SLURM scheduler in C, with Makefile-driven builds, debugging, and validation for stability and compatibility.

Cardinal Space Mining

Aug 2024 – Present

Head of Networking

- Collected multiple camera streams and relayed them to a third-party platform for live judging.

John Deere

May 2025 – Aug 2025

Cloud Security Engineer

- Led a migration of IAM, security, and dev-management tooling from Python to Go, cutting runtime cost by over 10%.
- Deployed high-throughput Go services on AWS EKS to run compliance checks across the cloud estate.

Iowa State University

Oct 2024 – May 2025

Research Assistant — Machine Learning

- Designed and trained object-classification models with PyTorch and OpenCV, tuning data preprocessing and tensor operations to cut training latency without losing accuracy.
- Probed model robustness by building adversarial exploit methods, then designed defenses to harden the models against them.

Cyclone Rocketry

Aug 2024 – May 2025

Lead Telemetry Engineer

- Built modular software to control and acquire data from airframe instruments, improving reliability and maintainability.
- Wrote ground-station software to visualize live telemetry during flights.

Caribou Coffee

Oct 2021 – Jan 2025

Manager

- Managed staff and daily operations, trained employees, and handled company devices and technical issues across the district.

PROJECTS

Omni HTTP Router

2025–2026

- Built a Rust HTTP router that resolves middleware at compile time into fully static stacks, removing traditional routing overhead.
- Benchmarked the static router against conventional middleware stacks to quantify the latency and allocation savings.

EDUCATION

Iowa State University

Ames, IA

M.S. Computer Science · GPA: 4.00

Aug 2025 – May 2027

- Concurrent B.S./M.S. program

Iowa State University

Ames, IA

B.S. Computer Science · GPA: 3.79 · Dean's List

Aug 2024 – Dec 2026

- Coursework: Compiler Design and Development, AI and Machine Learning in High Performance Computing, Network Architecture and Security, Theory of Computing, Software Design Practices

TECHNICAL SKILLS

Languages: C, C++, Python, Go, Rust, Bash, TypeScript, Java

Infrastructure & Platform: Docker, Linux/Unix, Git, CI/CD

Data & Backends: MySQL, PostgreSQL, Redis

Security: AES / RSA / ECDH, JWT / auth
